The Fegale Bigh School is one of the most sourchists of these feature interests of the second on the sourch and the present location and satisfaction of the second o

Under the new charter of the city the control and management of its schools and the property and funds beinguing thereto, their satablishment and maintenance, are vested solely in the Board of School Trustee, who, thus closhed with full power over the property and funds set apart for school purposes, are enabled to do their own thinking, and to carre out a policy which will best devance the educational interest of the wholestly. This is a wise provision in the organic law, and the improvements which have marked the first year of its separale existence give abundant promise of still greater results in the future.

OUT IN THE COUNTRY.

A Big Flood Along the Lebanon Branch.

About it o'clock night before last a heavy rain storm set in, coming from the southwest, which continued umbated until daylight. Yesterday mousing the whole country along the line of the L and N. R. from Lebanon Junction to Strawberry Station, was shooted with water. The streams were green in their residues current. As several points the railroad was under water and covernd with debris from the swollen streams. The early morning train on the L. and N. R. R. had to stop at everal points and remore obstruction. The Nashville train due here at six o'clock a. m. was detailed these hours by the storm. The growing creps were considerably demaged. Salt river, it is said, rose forty-fire feet. More rain fell in Buillit and Nelson constitution for several years past, and sil the streams have been more swollen. The growing whest, tree and meadows have been betaten down't the young corn washed out of the furrows.
